

APEX UW

Apex UW is a high-performance Utility Wood that Tour players love. This unique design combines the best features of higher lofted fairway woods, the best features of hybrids, with a more neutral ball flight. Using direct feedback from world-class pros like Phil Mickelson, Xander Schauffele, and Akshay Bhatia, we've created a multi-purpose club that better players can rely on from the tee, fairway, or rough.

Tour-Inspired Compact, Workable Shape & Optimized Length

The distinct clubhead shaping is inspired by in-depth feedback from Tour pros. It's a compact profile that they want to shape their shots for enhanced control. Club lengths are set between a fairway wood and a hybrid, allowing for versatile playability while still being easier to hit.

High Launch, Consistent Control and Tighter Dispersion

The Apex UW features 17.6 grams of MIM'D Tungsten Weighting per club delivering a precisely positioned the Center of Gravity in a neutral location. This delivers high launch, steeper landing angles, consistent spin characteristics and reduced draw bias.

High Velocity Ball Speeds From Jailbreak A.I. Velocity Blades

Our Jailbreak A.I. Velocity Blades are engineered to allow Face Cup to flex more for explosive ball speed and better spin rate consistency.

Fast Ball Speed From A.I. Designed Flash Face SS21 + Forged Face Cup

Apex UW's unique A.I. designed Flash Face SS21 is forged using a high strength C300 Maraging Steel for more ball speed and better spin consistency across the face.

Apex Utility Wood (UW)

Model	Availability	Length	Lie	Swing Weight
17°	RH	41.5"	57°	D3-D4
19°	RH/LH	41.5"	57°	D3-D4
21°	RH	41"	57.5°	D3-D4

Stock Shaft & Grip Offerings

Project X HZRDU Smoke Black RDX
60g (R) • 70g(R,S) • 80g(S, X-Stiff)

**shaft weights indicate weight class*

**60g (R) & 80g(S) are custom only configurations*

Lamkin UTx Grip
Charcoal/Black (52g)
