

# The New Tens

## A DRAMATICALLY BETTER PUTTER.

## NOW DRAMATICALLY BETTER.

### OUR MOST EXCITING HEAD SHAPES

We've enhanced the Ten shape that's incredibly popular on Tour and with golfers. It's sleeker, more forgiving, and now you can choose from impressive options in our 2-Ball or Triple Track to help improve your alignment. This is our best 2-Ball model ever, and these features are engineered to help you frame the ball at address with your intended line.

### NEW STROKE LAB SHAFT

We took our proprietary major-winning, multi-material Stroke Lab shaft and made it even better. This new shaft is seven grams lighter overall, it's stiffer, and it's more stable to enhance the tempo and consistency in your putting stroke.

### MICROHINGE STAR

This high-performance insert is packed with Microhinge technology, promoting immediate forward roll for improved speed and control.

HEAD	HOSEL	HEADWEIGHT	SHAFT	RH	LH	TOE HANG	LOFT	LIE	LENGTH	OFFSET
